An Avnet Company

Allied Packaging

Feature List

Date: February 11, 2022

Feature List:

Option 1 (Permissions Management- Role & User Level):

Allied features:

- Role & Permission Management (new module)
    - Listing
    - Add/Edit
        - Role Name
        - Permissions
            - Company Management (View / Add / Edit)
            - User Management (View / Add / Edit)
            - Facility Management (View / Add / Edit)
                - Shift Management (View / Add / Edit)
                - Off Time Management (View / Add / Edit)
            - Machine Management (View / Add / Edit)
            - Film Management (View / Add / Edit)
            - Recipe Management (View / Add / Edit)
            - Rule Management (View / Add / Edit)
            - Alerts Management (View / Add / Edit)

- Allied User Management (new module)
    - Listing
    - Add/Edit
        - Name
        - Phone Number
        - Email
        - Role
        - Company (single or multiple)
        - Facilities (single or multiple)
        - Permissions
            - Company Management (View / Add / Edit)
            - User Management (View / Add / Edit)
            - Facility Management (View / Add / Edit)
            - Machine Management (View / Add / Edit)
            - Film Management (View / Add / Edit)
            - Recipe Management (View / Add / Edit)
            - Rule Management (View / Add / Edit)
            - Alerts Management (View / Add / Edit)

Notes:

- It will only display permission options based on permissions available for that role from Roles & Permission Management.
  Example: Role Name: Allied Senior Manager, for Company Management module, if there is only "View" & "Add" permission given from "Roles & Permission Management" module then on Allied User Management Permissions, it will only display "View" & "Add" checkboxes in Permissions screen, "Edit" option will not be available.
- If the Allied User is given "View" permission at "Company" level then by default, it will have "View" permission for all Facilities.
- If the Allied User is given "Edit" permission at "Company" level then you can select "View" or "Edit" permission for each Facility.
- If the Allied User is given "Add" permission at "Company" level then you can select "View" or "Add" permission for each Facility.
- If the Allied User is given all permissions (View, Add, Edit) at "Company" level then you can select "View", "Add" or "Edit" permission for each Facility.

- Company Management (new module)
  - Listing
  - Add/Edit
    - Company Name
    - Phone Number
    - Company Email
    - Country
